

## Guidelines for the Regulations for Scholarship for Excellent Master Student of the Department of Physics, National Taiwan Normal University

Amended and approved at the 3rd department meeting in the Academic Year 2001 on April 8, 2002  
Amended and approved at the 4th department meeting in the Academic Year 2002 on June 9, 2003  
Amended and approved at the 1st department meeting in the Academic Year 2005 on September 14, 2005  
Amended and approved at the 1st department meeting in the Academic Year 2008 on September 26, 2008  
Amended and approved at the 3rd department meeting in the Academic Year 2012 on March 13, 2013  
Amended and approved at the 3rd department meeting in the Academic Year 2020 on March 29, 2021

1. These regulations are stipulated in accordance with the Regulations for Scholarship for Excellent Master Students in National Taiwan Normal University (hereafter referred to as the University).
2. The scholarship will be issued in each semester. Each recipient will be awarded a certificate of merit. The number of the recipient and the reward will be issued in accordance with the regulations in the University.
3. Recipients of this scholarship are not allowed to concurrently receive other scholarships in the same semester, excluding the research stipends from the Ministry of Science and Technology or the University. The working students with payments are excluded.
4. Eligibility:
  - (1) Taking at least two subjects with more than four credits for the graduated students of the department, excluding Thesis Study and Seminar, in the last semester.
  - (2) In the first semester of each academic year, the learning performance in the last semester is firstly considered and validated by following rule: Quantum Mechanics (II) (70%) and another subject (30%) for the graduated students of the department, excluding Subject Study and Seminar.
  - (3) In the second semester of each academic year, the learning performance in the last semester is firstly considered and validated by following rule: the average score of Quantum Mechanics (I), Classical Electrodynamics (II), and one subject between Statistical Mechanics (I) and Solid-State Physics (I).
  - (4) For applicants with the same learning performance, the Graduate Affairs Committee of the department will vote on the results based on other performances, including the participation in research projects and the publications in academic seminars and in peer-review journals.
5. The Regulations are implemented upon approval of the Department Meeting. All amendments are made following the same procedure.
